

# Digestive Balance

Digestive Balance is an oral gastrointestinal support supplement that supports gastrointestinal health, normal gastric pH and beneficial gut microbiome.

## Guaranteed Analysis

|                             |       |                            |           |
|-----------------------------|-------|----------------------------|-----------|
| <b>Crude Protein</b> (min.) | 13.0% | <b>Phosphorus</b> (actual) | 0.45%     |
| <b>Crude Fat</b> (min.)     | 2.0%  | <b>Copper</b> (actual)     | 150 mg/kg |
| <b>Crude Fibre</b> (max.)   | 17.0% | <b>Zinc</b> (actual)       | 550 mg/kg |
| <b>Calcium</b> (actual)     | 4.0%  | <b>Selenium</b> (added)    | 0.1 mg/kg |

## Feeding rates

Administer top-dressed on the feed 360 grams per 250 kg body weight daily according to how many times per day the horse is normally fed:

| Body weight (kg) | Grams top dressed on feed twice daily | Grams top dressed on feed 3 times daily | Grams top dressed on feed 4 times daily | Total grams per day |
|------------------|---------------------------------------|-----------------------------------------|-----------------------------------------|---------------------|
| 250              | 180                                   | 120                                     | 90                                      | 360                 |
| 500              | 360                                   | 240                                     | 180                                     | 720                 |
| 750              | 540                                   | 360                                     | 270                                     | 1080                |
| 1000             | 720                                   | 480                                     | 360                                     | 1440                |

Administer for 2 weeks or as recommended by a veterinarian.

## Characteristics

|                                                                        |                                                                  |
|------------------------------------------------------------------------|------------------------------------------------------------------|
| Contains organic selenium                                              | • Immunity and enhance absorption.                               |
| Contains zinc proteinate                                               | • Chelation ensures enhanced digestibility.                      |
| Contains dehydrated alfalfa meal as a carrier                          | • Enhanced palatability.                                         |
| Manufactured in a plant with high standards of biosecurity and quality | • Consistent quality feed.                                       |
| Manufactured in a 100% drug-free facility                              | • No risk of detrimental drug contamination.<br>• Peace of mind. |
| Manufactured in Canada                                                 | • Minimizes transport cost.<br>• Optimizes freshness.            |

## Ingredients

|                     |                                                                                           |
|---------------------|-------------------------------------------------------------------------------------------|
| Fibre               | Soybean Hulls, Dehydrated Alfalfa                                                         |
| Protein/Amino Acids |                                                                                           |
| Starch              |                                                                                           |
| Fat                 | Soybean Oil                                                                               |
| Postbiotic          | Yeast Culture Dehydrated                                                                  |
| Vitamins            |                                                                                           |
| Minerals            | Calcium Carbonate, Calcified Red Seaweed, Copper Sulphate, Organic Zinc, Organic Selenium |

| Flavour/Binder      | Vanilla Flavouring                                                                        |

\* Ingredients are not in order of their inclusion rate.

- Purina recommends analyzing your hay and balancing the ration accordingly.
- Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.
- Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.
- Make any feed change gradually over a 7 to 10 days period.
- Use a scale to weigh your feed so you know exactly how much your horse is being fed. Do not feed by volume.
- These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Consult your Purina Equine Consultant if necessary.
- Follow sound management practices along with optimal preventive veterinary medicine.

## Caution

Directions for use must be carefully followed.

Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.
